

IN THE CLAIMS

Please amend the following claims. Marked-up versions with additions underlined and deletions in brackets are attached as Appendix A.

C1
11. (Amended twice) The method of Claim 1, further comprising mounting a laser-scanning device on the multi-axis digital measuring device, wherein the laser-scanning device is used to measure at least a portion of the structure with the multi-axis digital measuring device.

C2
22. (Amended twice) The method of Claim 22, further comprising mounting a laser-scanning device on the multi-axis digital measuring device, wherein the laser-scanning device is used to measure at least a portion of the structure with the multi-axis digital measuring device.
